kökzhol

Kökzhol fact sheet

Temperature-controlled logistics for pharma, laboratory diagnostics and medical devices · Kazakhstan

Kökzhol (Көкжол) is a temperature-controlled logistics network for pharmaceuticals, laboratory diagnostics and medical devices in Kazakhstan. It runs two hubs in Astana and Almaty, serves 21 cities on four fixed route rings, carries three temperature classes with a data logger in every box, and is set up to EU and EAEU good distribution practice (GDP). The backbone starts on 15 December 2026.

KEY FACTS

Hubs	2 · Astana and Almaty
Cities served	21
Route rings	4 (North, East, South, West) + weekly backbone Astana ⇄ Almaty via Karaganda
Backbone length	≈1,200 km
Longest ring	West ring, 6,482 km; Aktau at 2,670 km from the hub
Temperature classes	+2…+8 °C chilled · +15…+25 °C ambient, heated in winter · −20 °C frozen
Route climate	−45 °C to +52 °C; 97 degrees between a January morning and a July afternoon
Monitoring	One data logger per box (from launch); EN 12830 recorder per vehicle (in preparation)
Standards	EU GDP 2013/C 343/01 · EAEU GDP, EEC Decision 80/2016 · Kazakh MoH rules · WHO TRS 961 Annex 9 · EN 12830 — all in preparation
Backbone start	15 December 2026
Languages	English and Russian; Kazakh after native-speaker review
Cargo insurance	Offered per shipment on the declared value from launch; insurer and cover basis published when the policy is signed
Operational figures	Boxes moved, lanes run, excursion rate and on-time share: published after the first full quarter of operation, with the measurement period

NETWORK: HUBS, RINGS, CITIES

RING	HUB	CITIES
Backbone	Astana ⇄ Almaty	Karaganda
North ring	Astana	Kokshetau, Petropavl, Kostanay
East ring	Astana	Pavlodar, Aksu, Semey, Oskemen
South ring	Almaty	Taldykorgan, Taraz, Shymkent, Turkistan, Kyzylorda, Saryagash
West ring	Astana	Aktobe, Khromtau, Uralsk, Atyrau, Aktau

> Facts marked «from launch» apply from 15 December 2026; facts marked «in preparation» describe the planned state and are not yet certified or audited.

Kökzhol fact sheet

Temperature-controlled logistics for pharma, laboratory diagnostics and medical devices · Kazakhstan

TEMPERATURE CLASSES

CLASS	BAND	WHAT MOVES	BOX AND MEDIUM	STATUS
Ambient	+15… +25 °C	Tablets, capsules, liquid forms, most devices and ambient reagents	Insulated box; heated compartment when the outside air is below 0 °C	FROM LAUNCH
Chilled	+2…+8 °C	Vaccines, insulins, biologics, IVD reagents, calibrators, blood products	Qualified cold box with pre-conditioned coolant packs; one logger per box	FROM LAUNCH
Frozen	−20 °C	Frozen reagents, plasma derivatives, some biologics and controls	Insulated shipper with dry ice (UN 1845); dry-ice weight on the label	FROM LAUNCH
Deep-frozen	−70 °C	mRNA products, frozen specimens, cell-based assay material	Dry-ice shipper with replenishment at the hub; hold time published after qualification	IN PREPARATION
Cryogenic	below −150 °C	Cell and gene therapies, cell lines, cryopreserved samples	Liquid-nitrogen dry shipper, charged at the hub	IN PREPARATION
Cool	+8…+15 °C	The small group of medicines labelled «store in a cool place»	Chilled box with a wider band, booked per lane	IN PREPARATION

CERTIFICATES AND DOCUMENTS

DOCUMENT	STATUS	WHAT WILL BE SHOWN
GDP certificate, Kazakh Ministry of Health	IN PREPARATION	Number, issuing body, validity date and scan
Licence for pharmaceutical activity: wholesale distribution with storage and transport	IN PREPARATION	Licence number and link to the state register
Vehicle and hub qualification reports, summer and winter (WHO TRS 961)	IN PREPARATION	Report IDs and dates per vehicle class and hub
Sensor calibration certificates, ISO 17025, renewed yearly	IN PREPARATION	Certificate IDs per logger batch
EN 12830 recorder conformity	IN PREPARATION	Declarations per recorder model
Cargo insurance policy	IN PREPARATION	Insurer and cover basis per shipment class

CONTACTS

Hub Astana
Backbone, North, East and West rings · contact details follow at launch

Hub Almaty
Backbone and South ring · contact details follow at launch

Pharma and clinical-trial desk
Name, photo and direct line follow at launch. Languages: English, Russian, German. Reply within one working day.
